

# MAX2 CONSOLE

## LESS IS MORE

### INNOVATIVE DESIGN

Combining traditional craftsmanship with modern technology, while maintaining our philosophy of 'Less is more', the MAX2 Console emerges as the most versatile console system the industry has seen. The MAX2 Console simply achieves more with less.

### Unlimited Customizability

Utilizing a single basic modular system, the MAX2 Console offers flexibility and options for customization limited only by imagination

### Contemporary Aesthetics

The use of high quality materials and finishes ensures a distinguished appearance that stands out from the rest.

# ACHIEVE MORE WITH LESS

## Ergonomic Design

Designed with the human operator in mind, the MAX2 Console delivers optimized comfort to the user in the mission critical environment.

## Robust Construction

The MAX2 Console utilizes a revolutionary modular system constructed with recyclable gauged sheet steel and precision aluminum extrusions for durability and strength.

## Natural Ventilation

Heat generated by equipment in console systems is a common problem; the MAX2 Console provide a solution: maintenance free ventilation.

## Custom Finishing

The MAX2 Console offers a wide variety of exterior designs and finishes to match your mission critical facility.
